DETAILED ACTION

Response to Amendment

The amendment filed on 6/02/04 has been received and acknowledged to be found persuasive in view of the prior art of record.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tim Churna on 7/14/04.

In claim 14, line 6 delete "the adhesion layer." insert (from claim 16) –the adhesion layer, further comprising, after the step of forming the barrier layer, the step of forming islands of copper as a main component spaced from each other on the barrier layer.—

Cancel claim 16.

Note: This creates a strong independent limitation, while canceling its dependent counterpart.

Allowable Subject Matter

Claims 3-6, 8-14, 17-21 and 23-28 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art does not describe or render obvious the invention claimed herein. The prior art does not teach the combination of layers and solid solubility limitations in the claims. Dubin a close reference includes an Al or Mg alloy between the barrier layer and the seed layer. The material from this Al or Mg layer eventually finds its way via diffusion to create the layer 70 an oxide for protecting the copper interconnect. Consequently, the seed layer or the zirconium layer is not placed on the barrier layer to promote adhesion of the barrier layer-copper interconnect but of adhesion between the interconnect and the Al or Mg layer. Further, the layers 53 and 52 cannot be considered a single barrier layer as 53 operates and functions for a completely different purpose. For these reasons, the claims as presented define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
